ABOUT **ROTARY TECH**

Rotary Tech is a trusted service provider specializing in the repair, refurbishment, maintenance and engineering of rotating equipment for process industries.

Led by Mr. Kiran Devkar.

Professional Experience:

- ✓ Quality Inspector at SURUGA India Pvt. Ltd., a MiSUMi Group Company — certified by Mr. Satoru Kuroda, Factory-Manager — DMW Corporation Mishima Japan
- ✓ API 610 Pump specialist for mainly oil and gas — Kawasaki Heavy Industries Japan Heavy equipment, centrifugal gas compressor, industrial machinery expert.
- ✓ Certified by Government of Japan: BASIC 2nd GRADE CERTIFIED SKILLED WORKER of Finishing (Grinding work of cutting tools for machine tools)
- ✓ Shizuoka Prefecture Japan, Certificate No 16-2-012-22-0027 dated Nov 10 2016 signed by Governor Dr Heita Kawakatsu.

With a team of experienced engineers and technicians, Rotary Tech delivers high-reliability engineering solutions to extend asset life, reduce downtime, and improve operational efficiency. Our hands-on expertise ensures precision repair and rigorous quality control, aligned with international standards to support safe and continuous operations for refineries, chemical plants, power plants, and manufacturing facilities.

WHY CHOOSE US?

✓ **INDUSTRY EXPERTISE**

Proven expertise in rotary & rotating equipment

✓ **RELIABLE SERVICE**

Consistent, on-time, dependable delivery

✓ **COST-EFFECTIVE SOLUTIONS**

Optimized processes to reduce downtime & costs

✓ **COMPETITIVE PRICING**

Transparent pricing, best value for quality

✓ **QUALITY ASSURANCE**

Rigorous testing & compliance to international standards

✓ **SKILLED WORKFORCE**

Certified engineers & technical professionals

✓ **CUSTOMER FOCUS**

Dedicated support and responsive service

✓ **JAPAN QUALITY FIRST**

Precision & discipline inspired by Japanese standards

Business Head – Experience from MITSUMI Group Company • DMW Corporation Japan • Kawasaki Heavy Industries • Govt. of Japan Certified Skilled Worker

OUR SERVICES & CAPABILITIES

1 REPAIR & REFURBISHMENT OF ROTARY EQUIPMENT

- Centrifugal Pumps
- Centrifugal Compressors
- Diesel Generators
- Mechanical Components
- Pump Shaft Manufacturing – 0.02mm Accuracy
- Overhaul and upgrade services – Advanced technologies
- 48-72 Hours Turnaround

OUR CAPABILITIES

Complete
Overhauling

Dynamic
Balancing

Shaft
Restoration

Precision
Alignment

Performance
Upgrades

Bearing
Replacement

Condition
Assessment

Efficiency
Improvement

2 ENGINEERING SERVICES

- Installation & Commissioning Support
- Power Failure Checkup
- Emergency Spares Development – Wear Rings, Shaft Sleeves, Impellers, Bushes
- Equipment Inspection
- Root Cause Analysis
- Technical Documentation
- Reliability Improvement Programs
- Precision Engineering & General Pump Spares
- CNC Lathe VTL Balancing Hydro Testing
- Shutdown Maintenance
- Preventive Maintenance
- Equipment Troubleshooting
- Plant Support Services
- On-Site Supervision
- Commissioning Assistance
- Japan Trained Engineers on-site/off-site
- API 610 & API 617 Expert

GENERAL PUMP SPARES RANGE – 8 CATEGORIES

1. Impellers
stainless impeller

2. Wear Rings
bronze

3. Shafts
steel shafts

4. Sleeves
precision sleeves

5. Throat Bushes
bronze

6. Bearings
steel

7. Gaskets
gasket/steel

8. O-Rings
rubber & steel

ROTARY TECH

Precision in Motion

INDUSTRIES WE SERVE

Oil & Gas

Offshore rig operations & exploration

Petrochemical Plants

Refinery & petrochemical processing

Power Generation

Cooling towers & energy plants

Fertilizer Plants

Fertilizer manufacturing facilities

Chemical Industries

Chemical processing & manufacturing

Process Industries

Process engineering & systems

OUR COMMITMENT

- Delivering reliable, high-efficiency rotating equipment tailored to industry needs
- Ensuring quality, safety, and performance across all applications
- Partnering for sustainable and continuous operational excellence
